

Advocating for Physicians and the Health of all Nebraskans

Nebraska Medical Association Speaker's Bureau

Thank you for considering becoming a speaker for the Nebraska Medical Association's Speaker's Bureau! The bureau is being formed in coordination with the Nebraska Health and Human Services System, which receives numerous requests for physician speakers throughout the year.

As a volunteer speaker, you will always have the option of declining an invitation. We will not ask you to travel to another community unless you indicate that you are willing to do so. We regret that we do not have funding to reimburse you for travel expenses.

The Nebraska Health and Human Services System will advertise the availability of the speaker's bureau and speaker locations on their web site. While much of the marketing of the speaker's bureau will be done through the Office of Women's Health, efforts will also be made to reach men's groups and mixed audiences of both genders and all ages.

Persons requesting a speaker will contact Kathy Ward with the Office of Women's Health and she will put them in touch with you.

After your presentation, we will appreciate your completing a form telling us how many persons attended.

If at any time you have any questions or decide that you no longer wish to be listed on our speakers' bureau, please contact:
